

"Stacy has been photographing my horses for over 10 years and she never disappoints. My house is full of pictures taken by her. Stacy's attention to detail and eye for capturing the best timing and essence of every horse sets her apart. Usually the hardest thing is narrowing down my picks!"

-Cara Klothe, Cara Klothe Dressage

"Working with Stacy and my mare was so much fun! The photos from my shoot took my breath away! It was so hard to pick just a few! Amazing artist! So professional and my mare loved her too!"

-Tracy McMenomy

FAQs

1. How do I get my horse ready?

Your horse should be cleaned and dry when I arrive. I cannot edit excessive dirt, mud or wet areas out.

2. Should I braid my horse?

Braids do make the photos more formal but you should do what you feel fits your horse and your tastes the best.

3. What should my horse wear?

For a fine art session, I recommend we do photos both with a bridle and some without. Photos without the bridle I use a slip halter so I can edit it out. Conformation shots should be done in a bridle unless the horse is under 2yo. Bridles should be cleaned and polished.

4. What should I wear?

If you will be in the photos, wear something neat and clean. If you want to do a dress change during the shoot, we can make that work.

5. Should I have someone to help?

YES! Getting ears forward can be tough and having help always makes it easier.

6. What are the consultations for?

The pre-session consultation is for me to get a feel for exactly what you want out of our time together. Do you have a favorite pose, do you want photos of you with your horse, do you want just black backgrounds, just outside or a combination. The post-session is to go over your photos together. We can talk about picking your photos, ordering wall art, and any edits you would like.

7. Do you require a deposit?

Yes. At this time I require a 10% non-refundable deposit.
